

MI²I Workshop

2017 **7.27** THRS.
13:30-17:40

#2 Conference Room,
Main Bldg., Sengen, NIMS

Chris Wolverton (Northwestern University)
Accelerating Materials Discovery with
Data-Driven Atomistic Computational Tools

Junichiro Shiomi (The University of Tokyo)
Informatics-Aided Computational Design of
Nanostructures for Thermal Transport

Isao Tanaka (Kyoto University)
Materials Discovery by Combination of First Principles
Calculations and Data-Centric Approaches

Yoshitaka Tateyama (NIMS)
Brute-Force First-Principles Sampling Investigations of
Battery Electrolytes and Interfaces
