A unified model for point-defect formation in B2 intermetallic compounds

XIAOBING REN† and KAZUHIRO OTSUKA‡§, 2000

Phil. Mag. A, Vol. 80, No. 2, pp. 467–491

There are two important misprints in this paper, which are corrected as follows:

Firstly, on page 471, the equation

$$\Delta H_{AV} = 4N \left(\frac{u_{AV} - u_{AA}}{2} \right)$$

should be

$$\Delta H_{AV} = 4N \left(u_{AV} - \frac{u_{AA}}{2} \right).$$

Secondly, on page 482, figure 2 (b), the sequence of the labels was incorrect. The correct labelling is shown below.

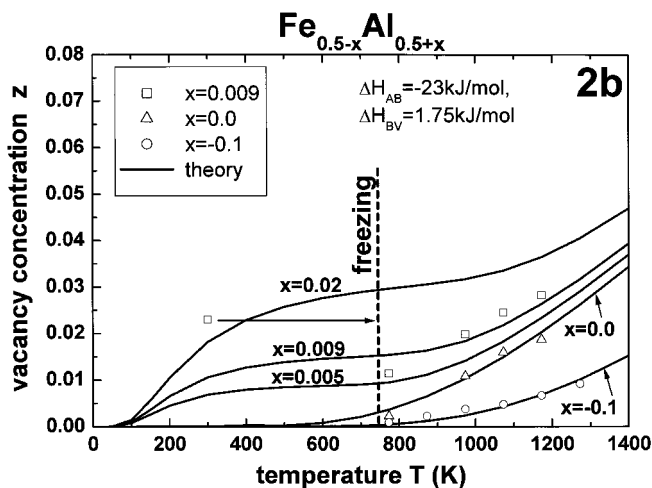

Figure 2. (b).
