

Transportation Information

From Incheon International Airport (Seoul) to Ulsan Airport via Gimpo Domestic Airport

1. Limousine Bus to Gimpo Airport (35min)
2. Gimpo Airport to Ulsan Airport (12 times a day, 1hr)
3. Taxi from Ulsan Airport to Hotel (40min)

From Gimhae (Busan) International Airport

1. Limousine Bus (22 times a day) to Gyeongju Express bus Terminal (70min)
2. Taxi from Gyeongju Express Terminal to Hotel (20min)

Hotel information

Please refer to the following web page :
<http://plaza.snu.ac.kr/~icass>

Registration Fee

Participant : US\$400
Student participant : US\$100
Accompanying person : US\$100

Organized by

Korean Institute of Metals and Materials
POSCO

Co-organized by

National Institute of Materials Science, Japan
Central Iron and Steel Research Institute, China

Sponsored by

Korean Institute of Metals and Materials
The Iron and Steel Institute of Japan
The Chinese Society for Metals

Co-sponsored by

Shanghai Baosteel Group Corporation
Doosan Heavy Industries & Construction Co., LTD
HYUNDAI HYSCO

Further Information

For further general information and technical matters,
please contact the secretariat,

First Announcement and Call for Papers

THE THIRD INTERNATIONAL CONFERENCE ON ADVANCED STRUCTURAL STEELS

August 22-24, 2006
Gyeongju Hilton Hotel, Gyeongju, Korea

ICASS 2006

Dear Colleagues

April, 2005

Modern technology demands high performance materials for each specific application and many exotic and innovative materials have been investigated and developed. In the steel industry, with the help of the recent increase in the demand for steel products and raw materials, large scale steel research projects have been able to be launched. The “Ultra-steel project” in Japan, the “HYPER-21 project” in Korea, and the “New generation steel project” in China are good examples of such projects.

In pursuing research into conventional grade steels with extreme properties, steel researchers realized that a much better understanding of ferrite transformations and new innovative ideas for processing are needed to achieve their goals. This has led to much collaborative effort and exchange of ideas. The ICASS (International Conference on Advanced Structural Steel) was born in these circumstances. The first meeting, ICASS 2002, was held in Tsukuba, Japan, and the second in Shanghai, China. We are pleased to announce that the third meeting, ICASS 2006, will be held at the Gyeongju Hilton Hotel, Gyeongju, Korea. The Korean Institute of Metals and Materials(KIM) and POSCO will organize this conference. As the old capital city of the Shilla dynasty (BC57-AD935), Gyeongju is one of the world heritage sites of UNESCO, and is referred to as “The Museum without Walls” .

The topics of the conference include all of the theoretical and practical aspects of the structure, processing and properties of advanced structural steels. You are cordially invited to this “Festival of Science and Friendship” .

Hu-Chul Lee

POSCO Professor of Materials Science and Engineering
Seoul National University
Chairman of the organizing committee of ICASS 2006

Topics

The sessions will cover both fundamental research and the industrial applications of structural steels.

Ultrafine Grained Steels

High Performance Structural Steels

Advanced Heat Resisting Steels

Advanced Corrosion Resistant Steels

Welding of Advanced Structural Steels

Advanced Sheet Steels

Manufacturing of Advanced Structural Steels

Abstracts

Submitted abstracts will be accepted in accordance with the guidelines outlined below :

- Abstracts, in English, are to be submitted electronically via E-mail: icass@plaza.snu.ac.kr
- Abstracts should not exceed 200 words
- Use as concise a title as possible
- The presenting author should be indicated by underlining his or her name
- Provide contact information for the presenting author ; name, address, E-mail, phone & fax numbers

Important Dates

Call for Papers and First Circular	April 1, 2005
Second Circular	October 1, 2005
Abstract Deadline	February 1, 2006
Abstract Acceptance Notification	March 15, 2006
Early Registration Deadline	May 15, 2006
Manuscript Submission	May 15, 2006
Final Program	June 15, 2006

Organizing Committee

Chairman

Hu-Chul Lee (*Seoul National University, Korea*)

Vice-Chairman

Wung Yong Choo (*POSCO, Korea*)

Kotobu Nagai (*National Institute for Materials Science, Japan*)

Han Dong (*Central Iron and Steel Research Institute, China*)

Members

Kwang Geun Chin (*POSCO, Korea*)

Jong-Kyo Choi (*POSCO, Korea*)

Heung Nam Han (*Seoul National University, Korea*)

Hyo-Tae Jeong (*Kangneung University, Korea*)

Ki Bong Kang (*POSCO, Korea*)

Jeong Tae Kim (*Doosan Heavy Industries and Construction Co., LTD, Korea*)

Kyoo Young Kim (*POSTECH, Korea*)

Nack Joon Kim (*POSTECH, Korea*)

Sung-Joon Kim (*Korea Institute of Machinery and Materials, Korea*)

Changhee Lee (*Hanyang University, Korea*)

Hae Geon Lee (*POSTECH, Korea*)

Jong Bong Lee (*POSCO, Korea*)

Yoon Yong Lee (*POSCO, Korea*)

Young-Kook Lee (*Yonsei University, Korea*)

Sung Namkoong (*HYUNDAI HYSCO, Korea*)

Dong Hyuk Shin (*Hanyang University, Korea*)

International Advisory Committee

Pingzhe Bai (*Tsinghua University, China*)

Wolfgang Bleck (*RWTH Aachen, Germany*)

Anthony J. DeArdo (*University of Pittsburgh, USA*)

B.C. DeCooman (*Ghent University, Belgium*)

Hiroshi Fukutomi (*Yokohama National University, Japan*)

Enhon Han (*Institute of Metal Research, China*)

Peter D. Hodgson (*Deakin University, Australia*)

Andy A. Howe (*CORUS, UK*)

Hiroyuki Kokawa (*Tohoku University, Japan*)

Zuying Lu (*Baosteel, China*)

Tadashi Maki (*Kyoto University, Japan*)

Kohuichi Maruyama (*Tohoku University, Japan*)

David K. Matlock (*Colorado School of Mines, USA*)

John W. Morris (*University of California, USA*)

Kiyoshi Nogi (*Osaka University, Japan*)

Mauro Pontremoli (*Centro Sviluppo Materiali SpA, Italy*)

Tadeusz Siwecki (*Swedish Institute for Metals Research, Sweden*)

Setsuo Takaki (*Kyushu University, Japan*)

Nobuhiro Tsuji (*Osaka University, Japan*)

Tooru Tsuru (*Tokyo Institute of Technology, Japan*)

Kaneaki Tsuzaki (*National Institute for Materials Science, Japan*)

Minoru Umemoto (*Toyohashi S&T University, Japan*)

Guodong Wang (*Northeast University, China*)

Xinhua Wang (*University of Science and Technology of Beijing, China*)

Yuqing Weng (*The Chinese Society of Metals, China*)

Pei Zhao (*Central Iron and Steel Research Institute, China*)
