

An International Journal Covering all Aspects of
Nanoscience and Nanotechnology

CALL FOR PAPERS

www.aspbs.com/nnl

ISSN: 1941-4900

NANOSCIENCE *and* NANOTECHNOLOGY LETTERS

Editor-in-Chief: **Sam Zhang**, Singapore

Nanoscience and Nanotechnology Letters (NNL) is a

multidisciplinary peer-reviewed journal consolidating nanoscale research activities in all disciplines of science, engineering and medicine. NNL publish original short research articles as communications or letters of important new scientific and technological findings, encompassing the fundamental and applied research. Authors will receive the following benefits:

- Electronic submission of articles
- Fast reviewing
- Rapid times to publication
- No page charges
- Free color where justified
- Distinguished editorial board
- Available both in print and online editions

**FREE COLOR
PRINTING
AT NO COST TO
THE AUTHORS**

Valencia, California 91381-0751, USA

Tel. (661) 799-7200

Fax: (661) 254-1207

Email: order@aspbs.com

Web: www.aspbs.com

RESEARCH TOPICS COVERED:

Synthesis, fabrication, processing, characterization, properties, and applications of all kinds of nanostructured and nanoscale materials including fullerenes, nanoparticles, nanotubes, nanowires, nanocrystals, nanoclusters, nanorods, quantum dots, quantum wires and wells, molecular wires, nanopowders, nanofibers, nanobelts, nanoshells, nanosieves, nanobeads, nanocoils, dendrimers, supramolecules, nano-assemblies, superlattices, nanocomposites, nanohybrids, oligomers, monolayers, multilayers, thin films and other nanoscale functional structures and devices. All research areas dealing with nanoscale science and technology will be covered including nanophysics, nanoelectronics, nano-optics, optoelectronics, nanomagnetism and nanodevices; atomic manipulation, computational nanotechnology, design, nanosensors, nanofluidics, nanomachining; structure analysis at atomic, molecular, and nanometer range; nanorobotics, nanotribology; nanobiotechnology, biological sciences, BioNEMS biomimetic materials; nanoscale genomics, nucleic acids sequencing, nanomedicines, drug delivery, biomedical nanotechnology, and much more....

**Submit manuscript to the Editors-in-Chief or one of the
Regional Editors, or one of the Associate Editors**

EDITOR-IN-CHIEF: Prof. Sam Zhang

Nanyang Technological University, Singapore; Email: MSYZhang@ntu.edu.sg

AMERICAN EDITOR: Dr. Weidong Zhou

University of Texas at Arlington, USA, Email: wzhou@uta.edu

ASIAN EDITOR: Dr. Katsuhiko Ariga

National Institute for Materials Science, Japan; Email: ariga.katsuhiko@nims.go.jp

EUROPEAN EDITOR: Dr. Davide Barreca

National Council of Research (CNR), Italy; Email: davide.barreca@unipd.it

ASSOCIATE EDITORS

Dr. Anjana Devi, Germany; Email: anjana.devi@rub.de

Dr. Gregory K. L. Goh, Singapore; Email: g-goh@imre.a-star.edu.sg

Dr. Nikhil Koratkar, USA; Email: koratn@rpi.edu

Dr. Takeshi Serizawa, Japan; Email: t-serizawa@bionano.rcast.u-tokyo.ac.jp

Dr. Suneel Kumar Srivastava, India; Email: sunil111954@yahoo.co.uk
