

First Circular

Since 2008, Asian Materials Data Symposium (AMDS) has been an important international platform for scientists and engineers from all of the world working on materials data and databases to exchange information and opinions, and to promote international collaboration. AMDS 2020 will be a great meeting for every participant to share the latest results and insights, as well as to experience the beautiful nature and historic culture of Awaji Island. We are looking forward to your attendance.

Symposium Topics:

Paper submissions are solicited in all areas relating to materials data collection, management and application, including:

- High throughput computing
- High throughput experiment
- Metallic material
- Inorganic material
- Organic and polymer material

Abstract Submission:

Abstract submission should be made online. The abstract will be collected into a proceedings booklet to be distributed at the symposium.

Note:

At least one of the authors of a paper must participate in the symposium.

Important Dates:

- | | |
|--|----------------------------------|
| ● Deadline for abstract submission | 7th Jan. 2020 |
| ● Notification of acceptance of abstracts | 31st Jan. 2020 |
| ● Deadline for online registration | 29th Feb. 2020 |

Organizers:

Organizer National Institute for Materials Science (NIMS)
Co-organizer Asian Materials Data Committee
