NIMS Internship Program

National Institute for Materials Science (NIMS) hosts graduate/undergraduate students for internship students. NIMS is the world-top-level research institute in the fields of materials and science and you have an opportunity to experience the cutting-edge research activities. NIMS is widely open to the world with many international researchers and students and provides a great personal network. NIMS also holds lots of international conferences and workshops (some are not open to public). There are financial supports for daily allowance and accommodation fee for the excellent students.

**Outline**

Duration: less than ninety (90) days 
Support from NIMS:*

- Daily allowance and accommodation fee in Tsukuba for the excellent students

The participants should prepare and cover:

- An admission from the NIMS researcher to accept you
- A round trip transportation fee from residence to NIMS
- Overseas travel accident insurance and liability insurance
- Utility charges at the assigned accommodation

**Procedure**

Step 1: Contact and ask your prospective supervisor in NIMS (the NIMS researcher) to accept you as an internship student.**

Required documents: Designated form for NIMS Internship Program, CV, student enrollment/registration certificate and official academic transcript

Step 2: The NIMS researcher decides to accept you and apply for the NIMS Internship Program (January).

Step 3: After the document screening, and you consult the NIMS researcher for the next procedure and your research plan.

Step 4: NIMS Internship Program starts

Step 5: A certificate will be issued after the final report is submitted.

* This program does not guarantee the acceptance of all applicants’ internship/financial support.
** Applicants (Students) are requested to contact NIMS researchers directly to find prospective supervisors in NIMS.
