

# The 244<sup>th</sup> MANA Special Seminar

**15:30-16:15**

## Prof. Han Woong Yeom

*(Pohang University of Science and Technology, Korea)*

**Bands of massless electrons and liquid lattice at the Pb/Si interface**

Chair: Dr. Tomonobu Nakayama (MANA PI)

**16:15-17:00**

## Prof. Hem Raj Sharma

*(Department of Physics,  
The University of Liverpool, UK)*

**Quasicrystals: Novel templates for the growth of thin films with exotic- and nano-structures**

Chair: Dr. Jonathan Hill (MANA Scientist)

**Venue:** Seminar Room #431-432, 4F, MANA Bldg.,

**Date:** **January 19<sup>th</sup> (Thursday)** **Time:** **15:30-17:00**

Contact: International Center for Materials Nanoarchitectonics (MANA), Nakata (ex. 8806)

**NAMIKI  
Site**
