

The 252nd

MANA & ICYS Joint Seminar

The 111th

15:30-16:00

Dr. Cesar Moreno Sierra

ICYS-Sengen Researcher

Towards a tunable superconductivity transition in small molecule organic compounds by combined scanning probe microscopies

Chair: Prof. Noboru Miura

16:00-16:30

Dr. Martin Hollamby

ICYS-Sengen Researcher

Solution assembly of pi-containing small-molecule hydrophobic amphiphiles

Chair: Prof. Noboru Miura

16:30-17:00

Dr. Hicham Hamoudi

ICYS-MANA Researcher

Self-assembled monolayer (SAM): The puzzle

Chair: Prof. Noboru Miura

Venue: Room# 811 Seminar Rm, Central Bldg., Sengen Site

Date: March 16th Friday

Time: 15:30-17:00

Contact: International Center for Young Scientists (ICYS), Takano(ext. 3969)
