

# The 286<sup>th</sup> MANA Seminar

## Something New in Bio-Nanotechnology

Chair: Dr. Masakazu Aono (MANA Director-General)

## Dr. Masahiko Hara

*(Director of RIKEN-HYU Collaboration Research Center,  
RIKEN Advanced Science Institute, Japan)*

Some new possibilities of visualization and force measurement using AFM tips modified by organic and biological molecules will be presented. Application of giant 2D protein crystals to the random number generation will be discussed also.

**Venue: Auditorium, 1F, WPI - MANA Bldg.,**  
**Date: September 28<sup>th</sup>, Friday Time: 15:30-16:30**

Contact: International Center for Materials Nanoarchitectonics (MANA), Nakata (ex. 8806)
