

The 307th MANA Seminar

15:30-16:15

Prof. Bo Shen

(School of Physics, Peking University, China)

Epitaxial growth and spin properties of III-nitride semiconductor low dimensional quantum structures

Chair: Dr. Yoshio Bando (MANA COO)

16:15-17:00

Dr. Ryouzuke Jinnouchi

*(Electrochemistry Div.,
Toyota Central R&D Labs., INC., Japan)*

DFT modified Poisson-Boltzmann calculations on electrode reactions in fuel cells technology

Chair: Dr. Yoshitaka Tateyama (MANA)

Venue: Auditorium, 1F, WPI - MANA Bldg.,

Date: January 25th (Friday) Time: 15:30-17:00

Contact: International Center for Materials Nanoarchitectonics (MANA), Nakata (ex. 8806)
