

REPM 2025

The 28th International Workshop on Rare Earth and
Future Permanent Magnets and Their Applications

Prospectus for Sponsorship and Donations

July 2024

National Institute for Materials Science (NIMS)

REPM2025 Executive Committee

Dear Sir or Madam, I would like to take this opportunity to express my sincere congratulations on the further development of your company. We would like to express our sincere appreciation for your understanding and support for the progress of our rare earth magnet research.

We are pleased to announce that the 28th International Workshop on Rare Earth and Future Permanent Magnets and Their Applications, REPM 2025) will be held at the Tsukuba International Congress Center for five days from July 27 (Sun.) to July 31 (Thu.), 2025. The workshop is a traditional international conference that has been held continuously around the world since its inception in 1974 in Dayton, USA. This will be the fifth time the workshop has been held in Japan, following Hakone, Kyoto, Sendai, and Nagasaki. This workshop has contributed greatly to the development of rare earth magnets by bringing together researchers from industry, academia, and government who are at the forefront of rare earth magnet and next-generation magnet research, covering a wide range of topics from the fundamentals to applications and production.

The workshop will be attended by researchers from around the world who are involved in rare earth magnets and next-generation magnets and their applications. We plan to take advantage of this valuable opportunity to promote your company by setting up a corporate exhibition booth and advertising on the workshop website program. Even if you do not wish to exhibit, we would like to invite you to consider sponsoring or exhibiting if you support the objectives of the conference.

If you do not wish to exhibit or advertise, but would still like to support us, we would be happy to consider accepting donations (tax-deductible).

At the end of this letter, I would like to express my sincere wishes for the further prosperity of all concerned.

REPM 2025 Exhibition Outline

What is REPM?

The International Workshop on Rare Earth and Future Permanent Magnets and Their Applications (REPM) is known as the most prestigious international conference in the field of magnets. Since its inception in 1974, the next meeting will be the 28th in the series. The workshop brings together scientists and engineers from around the world who are passionate about rare earth permanent magnets and their applications to share the latest research results, innovative ideas, and foster academic dialogue on a wide range of topics, from raw materials to resources, processing techniques, characterization, and future permanent magnets.

Scope

This workshop will focus on the latest advances in the development and commercialization of high-performance permanent magnets. The future of magnet technology will be shaped by addressing both fundamental materials research in academia and developments in industrial applications such as motors, generators, and actuators. To assess life-cycle sustainability, light will also be shed on rare-earth resources and magnet recycling issues. Fundamentals of materials development will include innovative methods such as machine learning and data-driven high-throughput materials exploration, new alloy design approaches, and advanced processing and characterization techniques. In addition, proposals for alternative magnets that do not use rare earth elements will be explored.

Outline of the event

Dates: Sunday, July 27, 2025 - Thursday, July 31, 2025

Venue: Tsukuba International Congress Center, Medium Hall 300 (2-20-3 Takezono, Tsukuba City)

Form: On-site only

Organized by: National Institute for Materials Science (NIMS)

Participants: Researchers from universities and public research institutes, researchers and engineers from companies, graduate students

Home Page: <https://www.nims.go.jp/mmu/repm2025/>

Secretariat: National Institute for Materials Science

In Research Center for Magnetic and Spintronics Materials

REPM2025 Executive Committee Secretariat

1-2-1 Sengen, Tsukuba City, Ibaraki Prefecture, 305-0047 Japan

Email: REPM2025@nims.go.jp

Income and Expenditure Plan

Unit: Yen

| Income | Amount | Expenditure | Amount |
|--------------------------------|------------|-------------------------------------|------------|
| Participation fee (300 people) | 16,500,000 | Participant expenses | 15,200,000 |
| NIMS contributions | 4,000,000 | Venue Expenses | 4,500,000 |
| Sponsorship | 1,200,000 | Outsourcing expenses | 1,800,000 |
| Subsidies | 1,000,000 | Advertising and Exhibition expenses | 900,000 |
| | | Secretariat Expenses | 300,000 |
| total amount | 22,700,000 | total amount | 22,700,000 |

REPM2025 Corporate Sponsorship

Sponsorship Fees and Benefits

Unit: Yen

| Plan | Standard | Bronze | Silver | Gold |
|--|---------------------------|---------------------------|----------------------------------|----------------------------------|
| Sponsorship Fee | 100,000 | 200,000 | 300,000 | 500,000 |
| Corporate Exhibition Booth Size | - | 3 sq.m. | 3 sq.m. Preferentialselection | 6 sq.m. Preferentialselection |
| Company logo on the website | ✓ as a Standard | ✓ As a Bronze | ✓ As a Silver | ✓ as a Gold |
| Advertisements in the program leaflet | Page 1/8 Advertisement | Page 1/4 Advertisement | Half-page ads | Full Page Advertisements |
| Participation in REPM 2025 | - | 1 | 2 | 3 |
| Placing company brochure in conference bag | - | - | - | ✓ |
| Display of corporate posters during the exhibition | - | - | - | ✓ |
| Projection of company logo during breaks | - | - | - | ✓ |

How to apply: Please apply through the Sponsors page of the REPM2025 website.

<https://www.nims.go.jp/mmu/rep2025/sponsors.html>

Application period: Monday, January 6, 2025 - Friday, May 30, 2025

- without a corporate exhibit may also be accepted as a special purpose donation to NIMS.

<https://www.nims.go.jp/donation/>

Payment method: After receiving your application, we will send you an invoice and ask you to transfer the funds to the designated account by the due date.

Invoices are expected to be issued in mid-June 2025.

Please bear the transfer fee.

Please note that no refunds will be made after the transfer has been made.
