

# OS-7 Materials Research for Photovoltaic Power Generation

Date/Time			Speaker	Tentative Title
July 16th	AM	9:00~9:10		Opening remarks
		9:10~10:10	Dr. Michio Kondo AIST	Current State and Prospective of Photovoltaic Power Generation
		10:10~11:10	Prof. Hideomi Koinuma Tokyo University, NIMS	Photovoltaic silicon material technology directed towards global clean energy solution
		11:10~12:10	Dr. Subhendu Guha United Solar Ovonic, USA	Advances in Thin Film Silicon Photovoltaic
		12:10~13:30	Lunch	
	PM	13:30~14:30	Dr. Han Liyuan SHARP CORPORATION	High performance of dye-sensitized solar cells and integrated modules
		14:30~15:30	Dr. Frank Nuesch EMPA, Switzerland	Polymethine Dyes for Solar Cell Applications
		15:30~16:30	Prof. Yoshio Oshita Toyota Technological	Present and Future of Super High Efficiency Multi-Junction Solar Cells
		16:30~17:00	Comprehensive discussion
