

The National Science and Technology Program on Nanoscience and Nanotechnology

M. K. Wu

Director, Institute of Physics, Academia Sinica

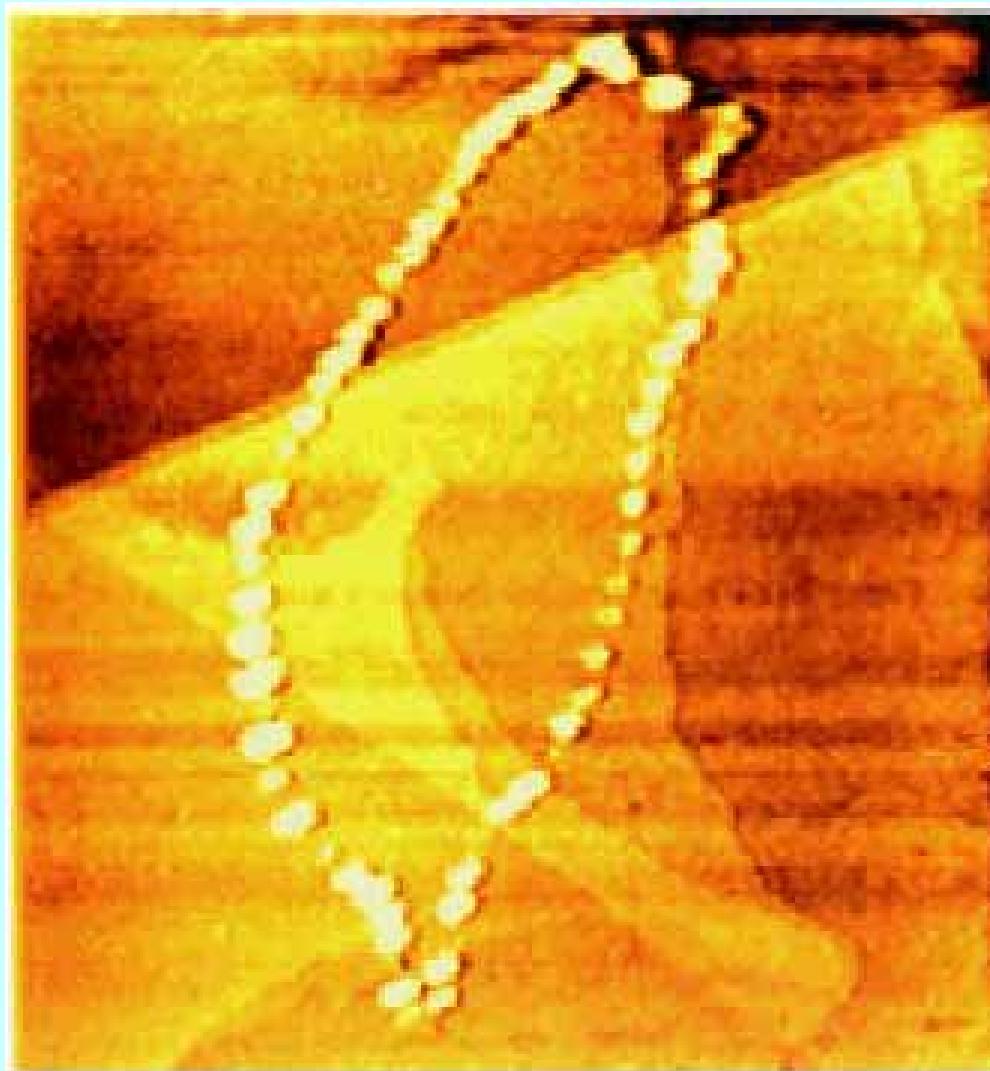

and

Executive Director (Academic Division)

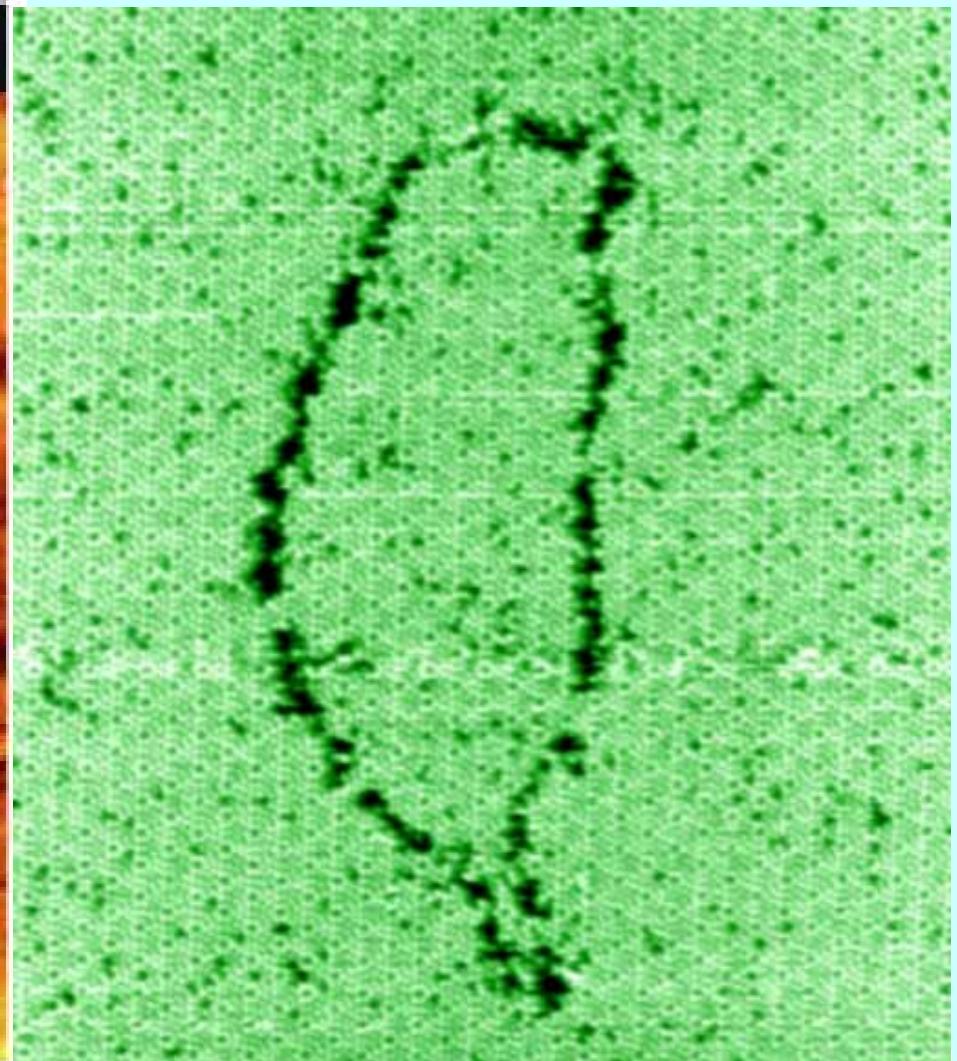

National Nanotechnology Program

IUMRS-ICAM-A10 Yokohama, Japan Oct. 12, 2003

Nanotechnology will lead Golden Taiwan to Green Silicon Island

— 100 Å

National Program on Nanoscience and Technology

- Through the establishment of common core facilities and education programs to achieve academic excellence, and promote industrial applications
- Based on the national competitive technologies to bring up the academic excellency, and then create innovative industrial applications

Budget 2003-2008

(Unit: NTD\$1000)

	FY92(2003)	FY93 (04)	FY94 (05)	FY95 (06)	FY96 (07)	FY97 (08)	Total

Core Facilities

- Two-step Approach—First Set up regional Common Laboratories to establish expert groups and electronic-networking system; then establish a Core Facility Research Center
- Regional Common Laboratories include
 - Characterization/processing laboratory
 - Nanomaterial simulation laboratory
 - Nanomaterials synthesis/production laboratory
- Sponsor programs for innovative new tools design /manufacture

Core Facility Program (5 Regional Programs) (1,5 M USD/Yr 3-year)

Strategy for Industrialization Nanotechnology Program

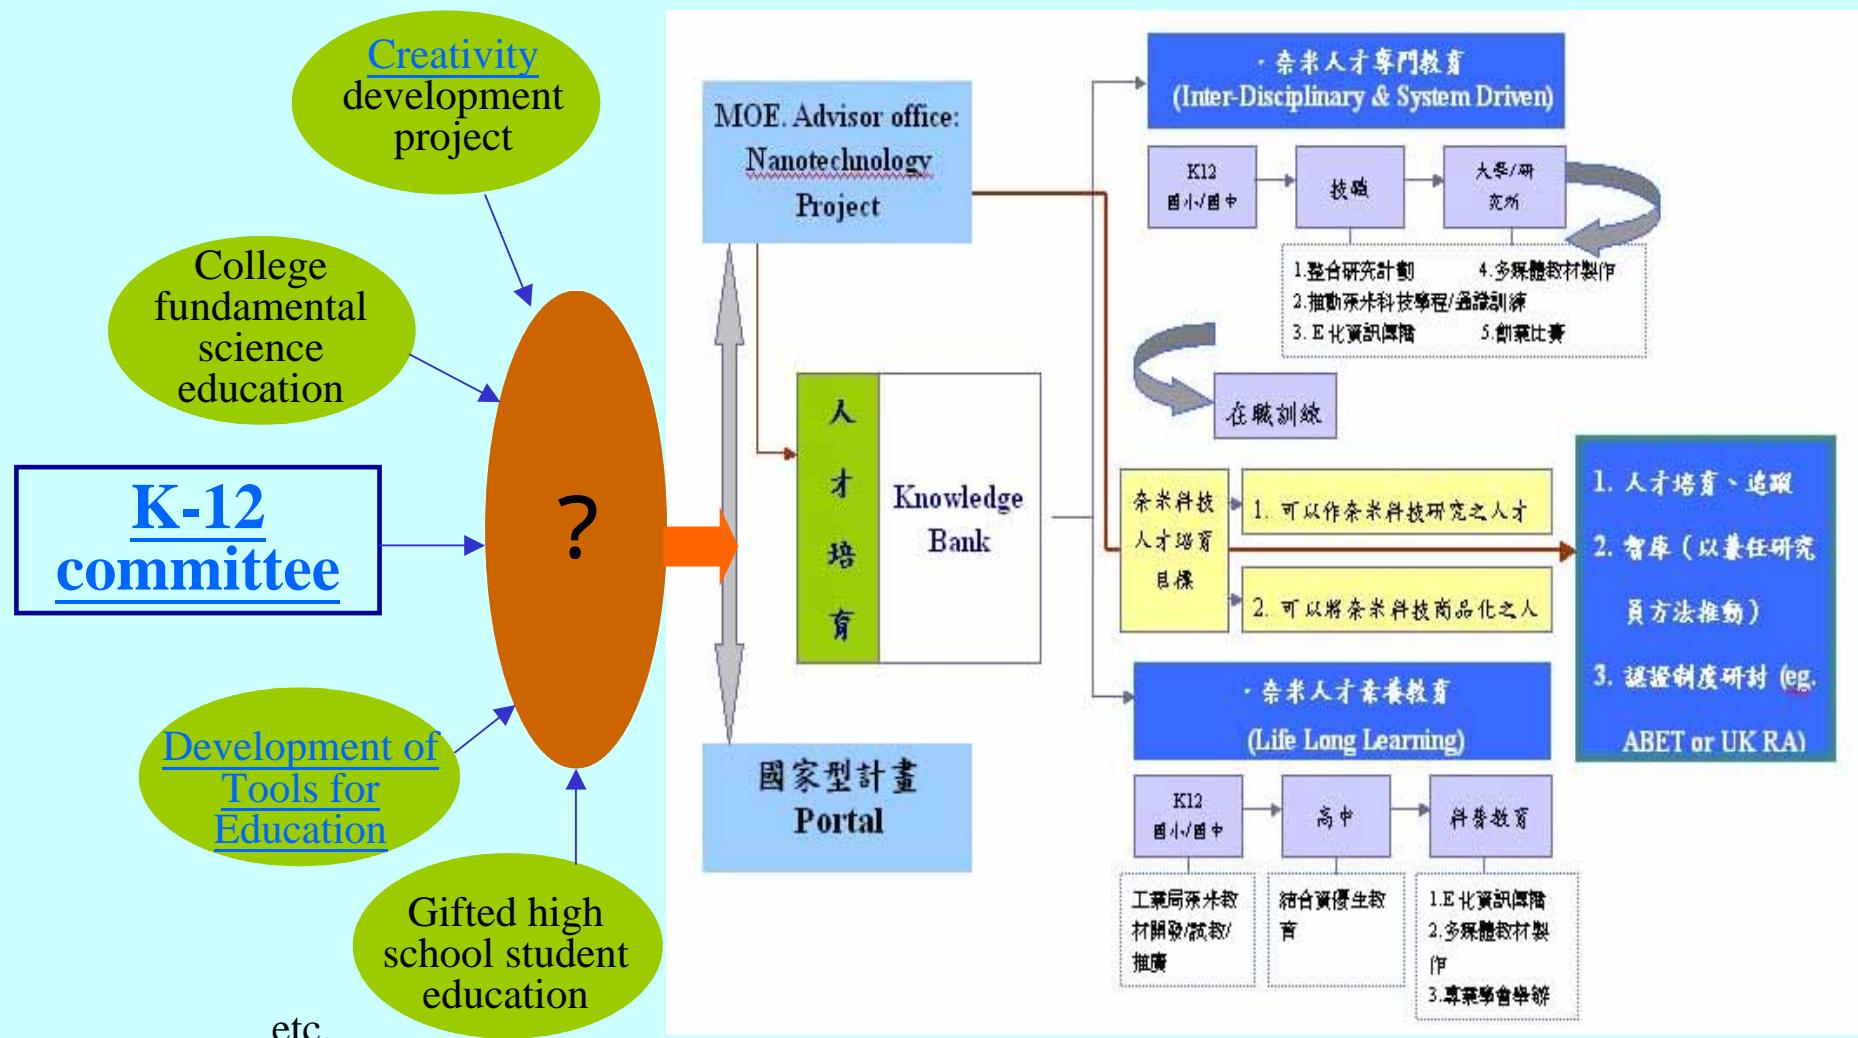

Education Program

- Establish interdisciplinary nanoscience & technology curricula
- Enhance basic science knowledge (from high school)
- Promote international collaboration and personnel exchange
- Recruit talents from abroad including personnel from mainland China
- Promote academic-industry collaborating research and personnel exchange

Structure of Regional Nanotechnology Personnel Development Center Project (1)

International Collaborations

- Joint Research Projects (NSC, AS, ITRI, MOE)
- Research Personnel Exchange (NSC, AS, ITRI, MOE)—Postdoctor, PhD students, Exchange Scholars, Distinguished Visitors
- International Workshops and Conferences (NSC, AS, ITRI)
- Join International Networking (NSC, AS, ITRI)
- Actively recruiting eminent scientists from abroad (NSC, AS, ITRI)
